## DISENTANGLING THE LANGUAGE OF NATURE: HOW MATHEMATICS HELPS US UNDERSTAND THE WORLD WE LIVE IN

With a concerned eye for the impact we have on the earth, **DR. DIOGO BOLSTER** develops simple mathematical models as useful tools for decision making. As an engineer, Diogo has a passion for using math to understand the beautiful world we live in and looks forward to sharing his knowledge on vortex rings, aquatic ecosystems and fluid dynamics with you. Don't know what these are? Come find out!
